# 

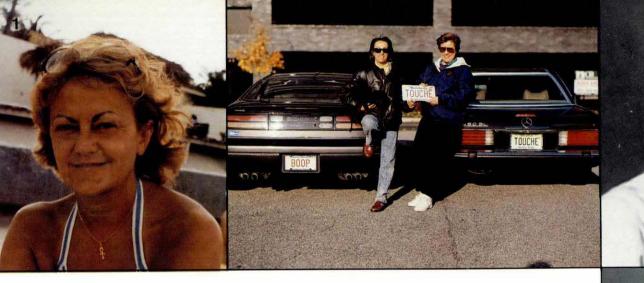

The son of a champion, and a champion in his own right, Giorgio Santelli was celebrated as the strongest sabre fencer in Europe, winning the difficult Hungarian and Italian sabre championships, as well as the Austrian and Hungarian foil titles. Indeed the Santelli family name has been honored in the fencing world for over a century.

Invited to the United States in 1924 to teach fencing, Giorgio Santelli quickly became known as the maker of champions. As the nation's head Olympic fencing coach, he accompanied his meticulously trained teams to Amsterdam, Los Angeles, Berlin, London and Helsinki.

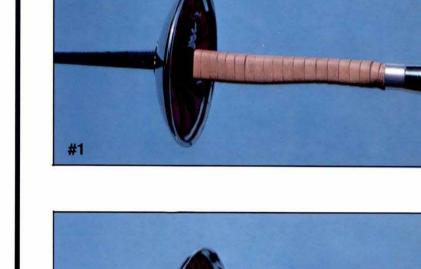

In 1942 he started a small fencing equipment business which was incorporated in 1947 as the U.S. Fencing Equipment Co. In 1955 the name of the company was changed to its present name of George Santelli Inc. with Giorgio as President and Betty Santelli as Vice-President.

For over fifty years the Santelli name has meant equipment and service at its finest at prices within the reach of all. The company was transformed into what it is today by the hard work and dedication to the American fencer of Giorgio and Betty. They took great pride in presenting to you, the American fencer, a quality uniform and mask made in the USA at our factory here in Englewood, N.J.

Maestro Santelli died in 1985 and Betty in 1991, but we continue in the tradition of excellence that they created. Our pledge to you in their memory is that Santelli will continue to provide the American fencer with the best possible service and equipment.

All Santelli foils are made with the finest imported blades. The #1 foil is mounted with a leather handle, your choice of stainless steel or aluminum 4" auard, and plastic pad. A premier quality blade is used in making the championship foil. The # 2 foil has a cord wound handle, 4" stainless steel guard, felt pad, and a blade of softer temper. The #3 foil has 3-1/2" aluminum guard, felt pad, and a softer tempered blade also. The # 3J foil is balanced for youngsters with a shorter cord wound handle and a lighter, shorter blade. The # 4, Italian style foil, is mounted with an aluminum guard, and carved plastic handle.

- 1. French foil, Championship
- 2. French foil, Santelli
- 3. French foil, Collegiate
- 3J. French foil, Junior model
- 4. Italian foil

epees

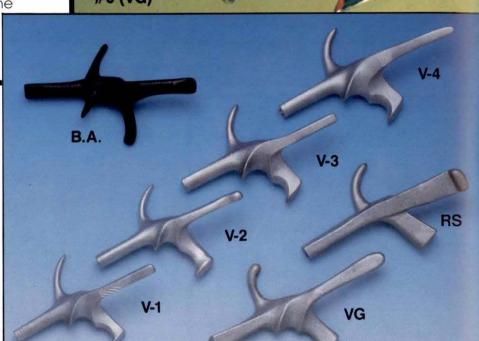

#13B

All pistol grip foils are available with either 4" stainless steel or aluminum guards. The most popular is the Belgian aluminum model grip but you have your choice of any of the **37A.** handles. (Pictured below)

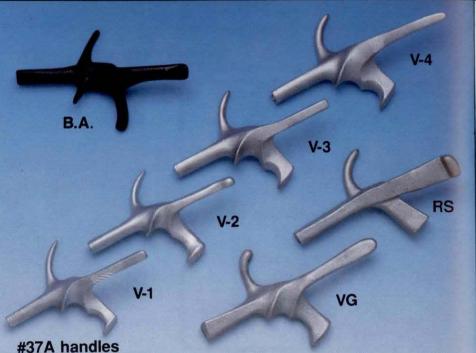

5. Pistol grip foil, Belgian plastic handle only.

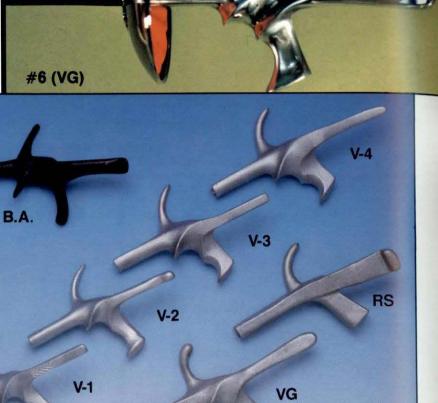

**6.** Pistol grip foil, aluminum handle, (German Visconti shown). Any of the #37A handles can be chosen instead.

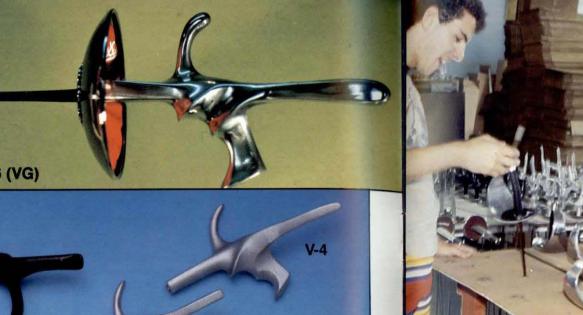

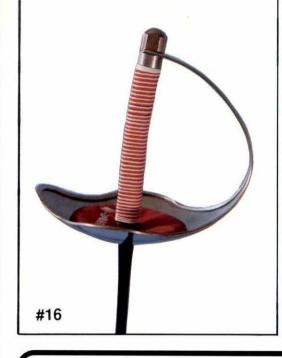

Santelli epees are beautifully balanced weapons that are assembled by fencers for fencers. Any pistol grip shown above can be selected but the Belgian and Italian Visconti (V4) are the most popular.

Santelli sabres are finely balanced and light weight. The #17 and #17T are feathers and will give you that competitive edge. The #16 and #18 are a bit heftier, built to take a lot of punishment. All models are still "loaded with touches".

16. International sabre: aluminium guard, cord or plastic handle (cord shown), felt pad, Italian or English made blade.

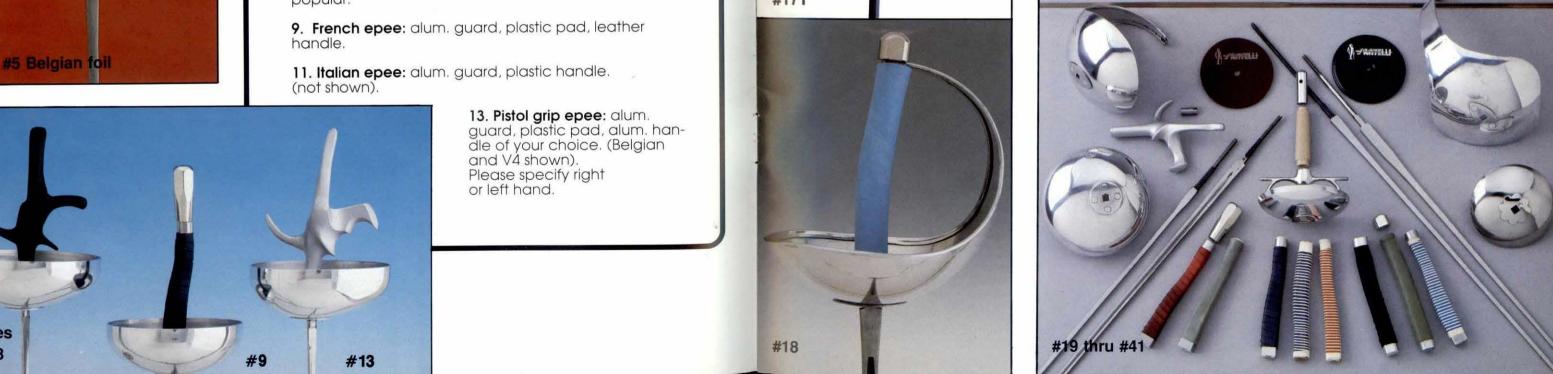

17. Santelli special sabre: Conceived by the Maestro himself.

Large duraluminum guard, leather handle, Gold Scaroni blade. (can also have premier quality France Lames blade).

171. Tournament sabre: Smaller, very light aluminum guard, leather handle, France Lames blade. (can also have Gold Scaroni blade). 18. Olympic sabre: alum. guard, cord or plastic handle (plastic shown), felt pad, Italian or English made blade.

# STANDARD BLADES AND WEAPON PARTS

19. through 41.: Consult your price list for description.

Santelli glove fits like.....well, a glove. From the basic foil glove (oyster white chamois) #42 to the top of the line #46, 3-weapon glove, you get the best in leather, sewing and design. Outside seams eliminate any pressure on the fingers. Soft supple deerskin gives the comfort a fencer needs. The #45 and #46 gloves with snug stretch nylon cuff are perfect for epee and sabre as well. For those who want more protection, the #43 and #44. For simplicity, the rugged #42 and the stylish #42A.

**42A. Foil glove,** white supple deerskin, side opening for body cord, full leather cuff.

**42. Foil glove**, oyster white chamois deerskin, full leather cuff.

**43. Sabre glove**, oyster white chamois deerskin, full leather cuff.

44. Foil-sabre glove, white deerskin, lock-stitched with reinforced palm, side opening for cord.
45. Foil-epee glove, oyster white chamois, elastic cuff with velcro closure.

**46. 3-weapon glove**, all white deerskin, reinforced palm, elastic cuff with velcro closure.

**42J. Junior foil glove,** oyster white chamois. (not shown but same style as #42). Sizes: 5, 6, 7 only. Sizes for all other gloves: 6, 7, 8, 9, 10, 11; Please specify for right or left hand.

**47. Foil epee mask:** Epoxy coated stainless steel frame, handsewn trim with sewn-in-insulated bib and elastic safety head band, recommended for competition use.

**47I. FIE approved foil epee mask:** Nylon coated stainless steel mesh, 800N. Sewn-in-bib, safety head band. Required in international class A competitions.

**48. 3-weapon mask:** Galvanized mesh, cowhide trim with detachable bib, recommended for practice and class use.

**49. Foil mask:** Collegiate model, galvanized mesh, wired stitched cordura trim and detachable bib, recommended for practice and class use. (Also #49J, smaller version mask for junior fencers).

**50. Sabre mask:** Galvanized mesh, full leather cowhide trim with detachable bib.

**50CC. Electric sabre mask:** Stainless steel, sewn-in-insulated bib and elastic head band.

**50E. FIE electric sabre mask**: Stainless steel, steel trim, 800N. Sewn-in-bib, safety head band. Required in international class A competitions.

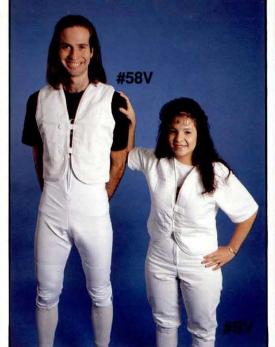

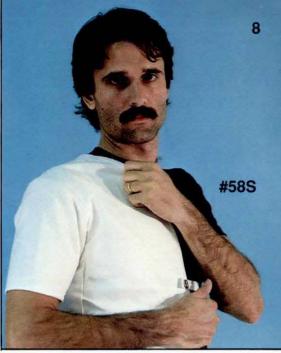

# TRAINING JACKETS

53. Men's practice jacket, 12 oz. poly duck, back zipper. Sizes: S (34/36) M (38/40) L (42/44) XL (46) XXL (48).
