National Referee Examination
Study Guide
January 2003

Information

These are the study questions used to prepare for the written test for the USFA National Referee Rating. Questions for the written examinations are chosen from those listed here. The Fencing Officials Commission strongly recommends that Referee candidates study the *USFA Fencing Rules* prior to taking an examination. The questions in the Study Guide are presented in the order of the relevant rules. If a candidate is unable to find the ANSWER to a specific question in the *Rules*, an FOC Examiner may be consulted. Please disregard all Study Guide materials with an earlier date.

A score of 90% or better is required in the general section and each of the weapons being examined. The required passing scores are as follows:

General 54/60
Foil 27/30
Épée 27/30
Sabre 27/30

To obtain a rating in a particular weapon, a candidate must first attend a Referee Seminar, then pass the written General Section as well as the specific weapon section. Within one year of successful completion of the written portion of the exam, a candidate must also pass a practical examination. The written examination is to be taken without any references (e.g., the *Rules*, Penalty Chart, consultation with others).

Please Note: These questions are based on the current *USFA Fencing Rules*, as adopted by the USFA Board of Directors.

The current USFA ratings scheme is based on a 10 level scale, with 1 being the highest.

A level 10 rating requires a passing score on the written exam and demonstrated proficiency at a level equivalent to the finals of an Unclassified competition

A level 9 rating requires a passing score on the written exam and a demonstrated proficiency at a level equivalent to the finals of a E rated competition.

A level 8 rating requires a passing score on the written exam and a demonstrated proficiency at a level equivalent to the finals of a D rated competition.

A level 7 rating requires a passing score on the written exam and a demonstrated proficiency at a level equivalent to the finals of a C rated competition.

A level 6 rating requires a passing score on the written exam and a demonstrated proficiency at a level equivalent to the finals of a B rated competition.

A level 5 rating requires a passing score on the written exam and a demonstrated proficiency at a level equivalent to the first round of an Open North American Cup competition. A level 5 rating must be earned before subsequent ratings can be earned.

A level 4 rating requires a demonstrated proficiency at a level equivalent to the Direct Elimination round of 128 of an Open North American Cup competition.

A level 3 rating requires a demonstrated proficiency at a level equivalent to the Direct Elimination round of 32 of an Open North American Cup competition.

A level 2 rating requires a demonstrated proficiency at a level equivalent to the Direct Elimination round of 8 of an Open North American Cup competition.

A level 1 rating requires a demonstrated proficiency at any level of an Open North American Cup competition.
